# How We Work

# Engagement Hiring Model

ENGAGEMENT MODEL	TIME & MATERIAL	FIXED COST	MONTHLY HIRING
Ideal For	R&D based evolving projects, maintenance projects.	Well-defined projects with fixed scope.	Augmenting your team with specific expertise.
Pricing	Pay based on working hours & required expertise.	Enjoy a pre-agreed fixed price to be payable on milestone completed	Pay for the hours worked (Monthly 160 Hrs).
Scope Flexibility	Adapt easily to ongoing changes throughout the project.	Defined scope with limited changes during execution.	Highly flexible scope, allowing for adjustments as needed.
Risk Management	Shared risk, ensuring collaboration on project challenges.	Primarily on us, as we manage unexpected hurdles within the set price.	Shared, with adaptable controls to manage your budget.
Timeline	Flexible timelines that adapt with changes.	Strict timelines agreed upon at the start.	Timelines determined by task assignments.
Transparency	High transparency with detailed reporting on costs.	Moderate transparency, with project progress updates.	High transparency, providing detailed reports on tasks and hours.
After Sales Support	Ongoing support to adjust and improve as needed.	Limited support tied to the original agreement.	Flexible support based on your evolving tasks or contracts.
Client Involvement	High dependency on client input for ongoing adjustments.	Low dependency after initial agreement; minimal client involvement required.	High dependency on client input for ongoing adjustments.

# **Partnership Model**

The dynamic nature of IT projects requires a dynamic IT Partner that can accommodate their services in different partnership models. We at Aglowid take pride in doing exactly that with our wide range of Partnership Models available for your varying requirements in terms of commitment, project complexity and urgency.
